James Fisher Mimic will be attending and exhibiting at the Vessel Performance Optimisation Forum in Copenhagen.

James Fisher Mimic (JFM), part of James Fisher and Sons, are providers of intelligent Condition Monitoring and Vessel Efficiency Software, along with Data Analysis Services. Our flagship product, Mimic, provides vessels owners and operators with live decision making data relating to asset condition and operational efficiency.

Data from Mimic can help you optimize your maintenance, improve performance and avoid costs associated with off-hire, breakdown maintenance and insurance claims.

If you are attending the forum do come along to our stand, where we will be pleased to discuss your future vessel performance and efficiency monitoring requirements.

We look forward to meeting you.

For further information on James Fisher Mimic's software, products and services, please visit our website or contact us by email.
